Casein - National Casein Report for U.S. Imports

Report 7 - Released on February 14, 2019

Markets overall for the bulk of available casein from traditional sources are called steady. Rennet casein prices are steady at the bottom of the price range but dipped slightly at the top due to additional new casein availability. Acid casein prices dipped at the low end of the price range but are steady at the top.

There are signs of possible price increases but now, many buyers and sellers are assessing the strength of skim milk powder and nonfat dry milk prices before committing to higher casein pricing.
Prices for: Spot Sales And Up to 3 Month Contracts, Free on Board - Warehouse, Non-Restricted, All Mesh Sizes, Conventional, and Edible Casein

Acid; Price Range - $/LB:	3.0150-3.1400
Rennet; Price Range - $/LB:	2.5250-2.6025

Information for the period February 11 - 15, 2019, issued weekly
