Engineering , University of Bologna (Italy)

CLAL

Research and Consultancy Group – Modena

Dear All,

We have the pleasure to inform you that CLAL Modena (Italy) and the Department of Agricultural Economics and Engineering (“DEIAGRA”), University of Bologna (Italy) have entered into an agreement in view of carrying out market researches in the dairy sector.

DEIAGRA is represented by professor Maurizio Aragrande and its main purpose is to develop researches on topics related to the dairy sector with regard to the Italian and International market. Prof. Aragrande is in charge of training in agricultural and food economics. He co-ordinates researches in this area and the information supplied to users on the above mentioned items.

CLAL is a professional advisory company (founded in 1962) in the dairy sector that put on web (www.clal.it) up-dated information and specialised datas.

The agreement between CLAL and DEIAGRA will be developed on a scientific and methodological basis.

CLAL and DEIAGRA are both confident that such co-operation will result in more efficient services provided to customers and users.

Yours faithfully

CLAL
Angelo Rossi
Managing Director
