Whole Milk Powder - Oceania

Report 27 - Released on July 01, 2020

Whole milk powder prices in Oceania are steady at the top of the price range but slightly higher at the low end. The low range firming is attributed to some buyers acting to secure additional WMP beyond contracted amounts. Most buyers and sellers see pricing remaining firm to higher through the next few months.

Whole milk powder is still available in New Zealand. Most plants there close the financial year at the end of July. Deals are being made with little price change. As the new season rolls out, WMP will be a priority manufactured dairy product in terms of milk allocation.

Prices for: Oceania, All First Sales, Free on Board - Port, Conventional, and Edible Whole Milk Powder

Price Range - 26% Butterfat; \$/MT: 2,750 - 2,875

Information for the period June 22 - July 3, 2020, issued biweekly
