Whole Milk Powder - Europe

Report 7 - Released on February 17, 2022

Western European whole milk powder prices are higher at each end of the range. Pricing is distinctly higher than in Oceania, which is very unusual. But 2021 and 2022, so far, have been unusual years in many ways. Sources attribute the price strength to tighter milk supplies than had been expected, or even hoped for. Little relief is expected in the coming weeks. WMP will remain a seller's market.

Prices for: Europe, All First Sales, Free on Board - Port, Conventional, and Edible Whole Milk Powder

Price Range - 26% Butterfat; \$/MT: 5,150 - 5,525

Information for the period February 7 - 18, 2022, issued biweekly
