Whole Milk Powder - Oceania

Report 31 - Released on August 04, 2022

Whole milk powder markets continued the downward trend as prices dipped on both ends of the range. Buying interest has strengthened alongside shrinking prices. Whole milk powder production volumes are being impacted by eroding pastures that weaken grazing conditions, leading to lower farm milk output. Exports remain active, with heavy loads moving into North Africa. The market undertone is weak.

Prices for: Oceania, All First Sales, Free on Board - Port, Conventional, and Edible Whole Milk Powder

Price Range - 26% Butterfat; \$/MT: 3,475 - 3,750

Information for the period July 25 - August 5, 2022, issued biweekly
