Oceania cheese prices adjusted lower at both ends of the price range as buyers' demands impact domestic cheddar prices. Supply levels surpass current contract needs in some cases. Surplus loads are available. Stable cheddar production schedules align with the available seasonal milk supply. At the recent GDT event, the cheddar all contracts price index adjusted with a slight increase, after declining over the past three events. The general market undertone is steady.

### Prices for: Oceania, Cheese, Cheddar, 39% Maximum Moisture ,Free on Board - Port

Price Range - \$/MT:

3,600 - 4,000

Information for the period October 16 - 27, 2023, issued biweekly
