Prices are stable for European dry whey. Demand is generally quiet in food and feed whey markets. Industry sources contend that whey derivatives are still the preferred product from buyers. As a result, manufacturers are focusing production on those products in lieu of dry whey, when they can. Dry whey inventories are snug, but shoppers can find the whey they need. Market tones for dry whey are quiet and balanced ahead of the year-end holidays.

Prices for: Western Europe, All First Sales, Free on Board - Port, , Conventional, and Edible Dry Whey
