Low/medium heat nonfat dry milk (NDM) prices continue to increase for both ends of the range and mostly price series in the West. Domestic demand varies from steady to stronger. Demand from international buyers is mostly steady. Stakeholders indicate more purchasing to fill immediate needs or cover future obligations is taking place. Spot load availability is tight in the region. Low/medium heat production schedules are steady. High heat NDM prices increased. Some stakeholders indicate low/medium heat prices are catching up more to high heat prices. Demand is steady and production schedules are mixed for high heat NDM.
