Low/medium heat nonfat dry milk (NDM) prices decreased at both ends of the range and mostly price series in the West. Stakeholder sentiments are somewhat bearish this week and buyers again pushed back on prices. Domestic demand varies from steady to lighter. Demand from international buyers is steady. Production schedules are steady. Many manufacturers continue to give open drying time to NDM production over dry buttermilk production. NDM spot load availability is somewhat tight. High heat NDM prices decreased as well. Demand is moderate. Production schedules are mixed.

**Prices for: Western U.S., All First Sales, F.O.B., Extra Grade & Grade A , Conventional, and Edible Nonfat Dry Milk**

Price Range - Low & Medium Heat; \$/LB: 2.1000 - 2.3000
