Ample volumes remained a central feature of the skim milk powder market this week, contributing to lower prices across the range. Strong milk output continued to support active production schedules, adding to product availability throughout the region. Buyer interest remained subdued, with most activity limited to routine requirements rather than additional commitments. Trading conditions were generally quiet during the reporting period, as readily available supplies outpaced demand. Downward pressure on prices persisted as the market worked through comfortable volumes.

### Prices for: Europe, All First Sales, F.O.B. - Port, Conventional, and Edible Skim Milk Powder

Price Range - 1.25% Butterfat; \$/MT:	3,050 - 3,400
---------------------------------------	---------------

Information for the period June 8 - 19, 2026, issued biweekly
