Skim milk powder prices increased at the bottom of the range and decreased at the top of the range this week. Demand varies from steady to lighter. Stakeholders indicate spot loads are more readily available. Winter temperatures are taking hold in South America and wet weather for some of the pastures are generally reducing cow comfort, which is making for lighter milk production. Skim milk powder production is mixed.

Prices for: South America, All First Sales, F.O.B. - Port, Conventional, and Edible Skim Milk Powder

Price Range - 1.25% Butterfat; \$/MT:	3,500 - 3,750
